Vol 2

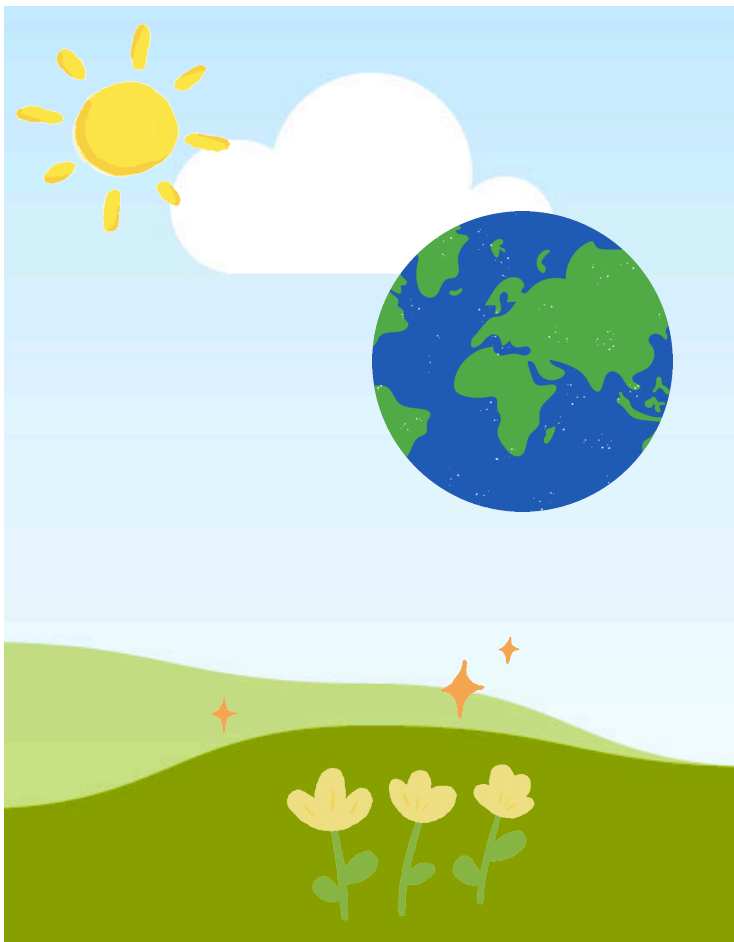

COLLABORATE LESSON PLANS

One of the most exciting phases of the project has begun as we dive into the creation of our lesson plans. This task is not just about drafting curriculum; it's a collaborative effort that involves our associated schools, who play a pivotal role in shaping the educational content. Together, we are crafting engaging and impactful lesson plans that will inspire and empower students to become active agents of change in their communities.

Exciting News from the Erasmus+ UNITY Project!

Revised Project Schedule: In response to the evolving needs and opportunities within the project, we have made some adjustments to our schedule. We've decided to swap the locations for our upcoming visits, with Pisa now scheduled for November 2023 and Malmö for May 2024. This change was made to align our activities with the InnoCarnival, a significant event that encapsulates the essence of our project's focus on project-based learning (PBL) and sustainable development. The InnoCarnival serves as a platform for showcasing innovative ideas and initiatives, making it a perfect fit for our project's goals and objectives.

LOOKING AHEAD

As we move forward, we are excited about the opportunities and challenges that lie ahead. The UNITY project continues to evolve and grow, driven by our shared commitment to promoting collaborative learning, sustainable practices, and empowering students to make a difference in the world around them. With each milestone we achieve and every lesson plan we develop, we are one step closer to realizing our vision of a more inclusive, innovative, and sustainable education system.

GET INVOLVED

We encourage you to stay engaged and involved in the Erasmus+ UNITY project. Follow our progress on social media, participate in our upcoming events and activities, and join us in our mission to transform education for the better.

In Conclusion: Thank you for your continued support and enthusiasm for the Erasmus+ UNITY project. Together, we are making a difference and shaping the future of education.
